Legislative Alert: Send a letter to your US Senators and Representatives asking for their support for Mental Health parity before time runs out!

Date: October 1, 2008

Action Requested: NASP needs you to ask your US Senators and Representatives to pass the “Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008” before the 110th Congress adjourns.

For many years, NASP has supported efforts in Congress to pass mental health parity legislation. Never has Congress been so close to accomplishing this goal than this year. The bill needs one more push to make it through the Congress and to the desk of the President. CONTACT YOUR ELECTED OFFICIALS TODAY! Time is running out.

The “Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008” requires health insurance plans that offer mental health coverage to provide that coverage on par with financial and treatment coverage offered for other physical illnesses. Currently, many health insurance plans allow treatment for physical ailments to extend until the illness is remedied while they also limit the length of treatment permitted (i.e. 6 weeks) for mental illnesses. This new legislation would resolve many of the disparities in care that currently exist between physical and mental health care coverage. This legislation was developed in talks with mental health, insurance and business organizations to craft compromise legislation. It does not mandate that group plans must provide any mental health coverage, but will improve coverage for about 113 million Americans including adults and children. This legislation has broad bipartisan support and is also supported by the White House. However, as the close of the 110th Congress is rapidly approaching it is critical that the Congress pass this legislation and send it to the White House before adjournment.
