

## Replying to a Post in the Communities (By E-mail)

You can reply to a discussion directly via the daily digest notification e-mails you receive from each community.

You can click the blue "Reply to Group" button (the leftmost of the two buttons) to reply to **all Community members** by entering your message text in the body of the e-mail that pops up. **Note: When you hit "send" in your e-mail response, your reply will either be posted directly to the community, or go to moderation to be approved and then posted to the community.**

You can also click the blue "Reply to Sender" button (the rightmost of the two buttons) to send a private message to the author of the post.

There are also additional options hyperlinked below the messages you receive in your e-mail. You can reply to all Community members via the NASP Communities website, view the complete discussion thread, and more.
