Each year, the NASP convention Exhibit Hall allows me to stay up to date on all of the latest and greatest products and services available!

— JOANNE, CHARLESTON, SC
Reach more than 5,000 anticipated convention attendees focused on learning about the latest and most effective products, services, training, and best practices to improve their skills.

How schools are operating this year has been entirely new, and your product or service may be the answer school psychologists need as they work through the challenges. Our attendees will be very interested in products and services that address issues like virtual service delivery, increased mental health needs of students, and developing positive school climates that make schools places where all students can thrive.

School psychologists serve on the front lines of education's biggest challenges today and rely on the most innovative, up-to-date products, publications, and services.
