@Bully_Research

- Tweet comments and questions!
Objectives

• Participants will understand that bullying is a social relationship problem that is influenced by multiple factors.

• Participants will learn about the research detailing the impact of bullying and harassment on school climate and student learning.

• Participants will learn what the best remedies are for policies and practices to address bullying and to restore positive conditions for learning.

• Participants will be provided with recommendations for how educators can best respond to bullying and harassment and they can become positive advocates for safe and supportive schools.

Bullying Prevention in Schools: Using Partnerships to Reduce Bullying

- Target Bullying: Ecologically-Based Prevention and Intervention for Schools.
- Working with schools and school districts across the U.S. since 1998.
- The goal is to help schools collect and use data to make decisions about effective bullying prevention and intervention strategies.
- Advocate for an annual data-based decision-making model.
Talk Based in Part on:

Translation of research to practice

www.education.com

Special issue on bullying, “Bullying @ School and Online,” including 150 peer-reviewed brief articles from scholars around the world.
Why Focus on Bullying?

• Bullying at age 14 predicted violent convictions between ages 15 and 20, drug use at ages 27-32, and an unsuccessful life at age 48 (Farrington & Ttofi, 2011).

• Bullying has been connected to both homicidal and suicidal behavior; however, greater variance is explained by depression.

• Victims and bully-victims are more depressed and have lower self-esteem than non-victimized youth (Olweus, 1993; Swearer et al., 2001).

• Bullying has become a major public health concern.
The Costs of Bullying

- Bullying is a **social problem** that negatively impacts 3 out of 4 students during their school years.
- Bullying is a **mental health problem** - the psychological consequences for students involved in bullying is severe - depression, suicide, antisocial behavior.
- Bullying creates feelings of helplessness, anger, and frustration.
- Bullying contributes to negative school climate, which is connected to lower academic functioning.
- Adults often do not know how to effectively respond.
- Bullying is expensive – dropout, suicide, litigation.
Definition of Bullying (www.stopbullying.gov):

• Bullying is unwanted, aggressive behavior that involves a real or perceived power imbalance. The behavior is repeated, or has the potential to be repeated, over time. Both kids who are bullied and who bully others may have serious, lasting problems.

• In order to be considered bullying, the behavior must be aggressive and include:

• An Imbalance of Power: Kids who bully use their power—such as physical strength, access to embarrassing information, or popularity—to control or harm others. Power imbalances can change over time and in different situations, even if they involve the same people.

• Repetition: Bullying behaviors happen more than once or have the potential to happen more than once.

• Bullying includes actions such as making threats, spreading rumors, attacking someone physically or verbally, and excluding someone from a group on purpose and can be perpetrated electronically (i.e., cell phone, computer, gaming).
Bully/Victim Continuum*

- Bully Perpetrator—reports bullying others
- Victim/Target — reports being bullied by others
- Bully-Victim — reports bullying others & being bullied
- Bystander — reports observing others being bullied
- No Status/Not involved — does not report any involvement with bullying

*IMPORTANT: This is a dynamic continuum; kids move between these roles.
Draw A Bully

I'm being Bullied so I'll bully you.

Ha! Ha!
Ha! Ha! Ha! Ha!

5 third kid!

Thinking bubble

Thinking bubble

Foamed teeth

Bite

Bite

Muscles

Ha! Ha!

Pour little kid!

Nose

Ow!!
• Quotes from the article:
• While it can be hard to cope with the emotions bullying brings, Swearer encourages parents to focus on solutions for their child.
• "Going in angry and yelling and screaming, which I have seen, does not help anybody," Swearer said. "Everybody just gets defensive."
• Parents should realize that bullying is a complex social problem, and the situation may have been developing for some time, she said.
Some on-line reader responses:

• No, but going in swinging usually stops this BS in its tracks.
• This is both stupid and exploitable. I hate to say it but we need bullying in society. It's what separates the weak from the strong, and motivates people to rise above. If you can't rise above, then you're the runt of the litter and you kill yourself. Society has just become stronger with one less weakling.
• Violence tends to solve bullying. I'd rather my kids threw someone who was bullying them into a beating, rather than have it come back to screw them later in life by lowering their self esteem.
• People might as well know up front that I'll go straight to jail about my kids. Some brat wants to bully my kid, I'll show him/her what a REAL bully looks like.
• When my son was growing up I told him I'd better not ever catch him bullying another and at the same, I'd better not ever catch him being used as a punching bag.
• I rather my son got in trouble with school authority for standing up for himself than just stood there and took crap from other kids!

• When all else fails in the "civilized" setting, sometimes we have to go back to old fashioned methods of sending a message the bully will surely understand.

• It's liberals like yourself that allow bullies to continue as you and your kind are soft on handing out consequences to the bullies.

• Only way to stop this kind of behavior is to make it so its not fun anymore for the evil sheep that do the bullying. Hurt them. Hard and fast and bad...and if you are too weak to do it by yourself then get the help of other kids who have been victimized...catch the bully alone...and make it so its no fun any more.

• If a fist won’t work....grab a weapon.....they have to be stopped...period....face it...we don’t need these animals...
When you are in deep trouble, say nothing, and try to look inconspicuous.
A Social-Ecological Model of Bullying

(Bronfenbrenner, 1979; Orpinas & Horne; 2006; Swearer & Espelage, 2004)
We need to ask the right question: “What are the conditions that allow bullying behaviors to occur?”
Research on Individual Factors in Bullying (not an exhaustive list)

- **Gender:** Males involved more frequently in direct aggression than females (Card et al., 2008; Cook et al., 2010)
- **Grade Level:** Bullying increases during transition periods (i.e., from elementary to middle school) (Pellegrini, 2011)
- **Social skills:** Lacking (Cook et al, 2010) or superior (Rodkin et al, 2006)
- **Ethnicity:** Students in the ethnic minority are at greater risk for being bullied (Graham, 2006)
- **Religious orientation:** Religious minority youth are at greater risk for being bullied (Eslea & Mukhtar, 2000)
- **Sexual orientation:** LGBTQ youth are at greater risk for being bullied (GLSEN, 2009; Rivers, 2011; Robinson, Espelage & Koenig, 2011; Russell & Joyner, 2001)
- **Disability status:** Students in special education (Rose, 2011; Swearer et al, in press)
- **Conduct problems:** (DSM-IV, 2000; Cook et al., 2010)
- **Depression and anxiety:** (Cook et al., 2010; Bauman & Walker, in press).
Research on Family Factors in Bullying (not an exhaustive list)

- **Domestic violence**: Modeling of aggressive behavior is a risk factor for bullying (Duncan, 2011; MacKinnon-Lewis et al., 1997)
- **Authoritarian parenting**: Parenting styles that are punitive and unsupportive (Baldry & Farrington, 2000)
- **Poor parental supervision**: Lack of supervision is related to bully perpetration and to being bullied (Cook et al, 2010)
- **Physical discipline**: The use of physical discipline is correlated with bullying (Espelage et al, 2000)
- **Physical abuse**: Parental physical abuse of children is linked to bullying (Schwartz et al., 1997; Strassberg et al., 1994)
- **Sibling aggression**: Sibling bullying at home is associated with bullying at school (Duncan, 1999; Wolke & Samara, 2004)
- **Parental drug and alcohol abuse**: (Swearer, Espelage et al., in press)
- **Marital discord**: (Duncan, 2011)
Research on School Factors in Bullying (not an exhaustive list)

- **Teacher attitudes**: When teachers ignore bullying, higher rates of bullying exist (Holt et al., 2011)
- **Teacher responses**: Teachers have less empathy for victims of relational bullying and are less likely to intervene (Bauman & Del Rio, 2006)
- **Classroom characteristics**: Classrooms that have negative peer friendships, poor teacher-student relationships, lack of self-control, and poor problem solving have higher levels of bullying (Doll et al., 2011)
- **Academic Engagement**: Schools with lower levels of bullying have higher levels of academic achievement (Twemlow et al., 2001)
- **School climate**: Negative and punitive school climate is associated with higher levels of bullying (Cornell, 2006; Elias, 2011; Kasen et al., 2011)
- **Sense of school belonging**: Students who feel connected to school are less likely to be involved in bullying (Swearer et al., in press)
Research on Peer Factors in Bullying
(not an exhaustive list)

- **Aggressor-victim relationships**: Important to understand bullying within the larger peer context—bullying can be the route to popularity (Card & Hodges, 2009; Hawley et al., 2007; Rodkin at el., 2000)

- **Homophily** (aka, “birds of a feather flock together): Bullying occurs in the peer context; rarely is it an isolated behavior perpetrated by one individual (Espelage et al., 2003)

- **Delinquency**: Engaging in delinquent behaviors is a predictor of involvement in bullying (Cook et al., 2010; Swearer et al., in press)

- **Alcohol/Drug use**: Victims and bully-victims are more likely to use drugs and alcohol (Brokenbrough et al., 2002)

- **Peer norms**: When bullying is accepted by peers it is more likely to occur (Craig & Pepler, 1997; Salmivalli et al, 1997)

- **Social Support**: Victims and bully-victims report lower levels of social support than bullies and peers not involved in bullying (Holt & Espelage, 2007)
Research on Community and Societal Factors and Bullying  (not an exhaustive list)

- Less research exists on examining community and societal influences on bullying and victimization because this work is complex and expensive.

- **Neighborhoods**: Unsafe, violent, and disorganized neighborhoods are risk factors for bullying (Cook et al., 2010; Swearer, Espelage et al., in press; Youngblade et al., 2007)

- **Media**: Meta-analysis of media violence and aggressive behavior suggests a relationship between violent content and aggressive behavior (Gentile, 2003); playing mature video games predicted bullying in middle school students (Olson et al., 2009)

- **Youth Engagement**: Youth who are positively engaged in their communities are less likely to be involved in bullying (Slee, 2001; The P.E.A.C.E. Pack)

- **Intolerance**: Homophobia, sexism, classism, racism, etc. all create conditions for bullying
We need a MAJOR paradigm shift!

• We need to move away from thinking that punishment-based strategies will stop bullying behaviors.

• APA’s zero tolerance task force in 2006 found that zero tolerance policies were ineffective ([http://www.apa.org/pubs/info/reports/zero-tolerance-report.pdf](http://www.apa.org/pubs/info/reports/zero-tolerance-report.pdf)).

• We need to recognize the complexity of bullying behaviors across the social ecology and realize that the solutions need to consider the entire social ecology.

• Preventing bullying starts with every individual making a commitment to treating **all humans with dignity, tolerance, and respect.**
Lessons Learned: CBS Sunday Morning Show

If you don’t help stop bullying, who will?

Parents, teachers, school administrators, health-care professionals, law enforcement officers—we all have a responsibility to prevent bullying. To find out how you can help stop it, log on to www.StopBullyingNow.hrsa.gov.
Ten Actions ALL Parents Can Take to Help Eliminate Bullying

1. Talk with and listen to your kids—everyday
2. Spend time at school and recess
3. Be a good example of kindness and leadership
4. Learn the signs
5. Create healthy anti-bullying habits early
6. Help your child’s school address bullying effectively
7. Establish household rules about bullying
8. Teach your child how to be a good witness or positive bystander
9. Teach your child about cyberbullying
10. Spread the word that bullying should not be a normal part of childhood.
Ten Actions Parents Can Take If Their Child Has Been Bullied (www.education.com

1. Make it safe for your child to talk to you
2. Teach your child to say “Stop!” or go find an adult
3. Talk with your child’s principal and classroom teacher about the situation
4. Arrange opportunities for your child to socialize with friends outside of school to help build and maintain a strong support system
5. Don’t go it alone—seek supports from other parents, friends, school personnel
Ten Actions Parents Can Take If Their Child Has Been Bullied

6. Encourage your child to stick with a friend (or find someone that can act as a buddy) at recess, lunch, in the hallways, on the bus, or walking home.

7. If cyberbullying is an issue, teach your child to bring it to the attention of an adult, rather than responding to the message.

8. Help your child become more resilient to bullying.

9. Provide daily and ongoing support to your child by listening and maintaining ongoing lines of communication.

10. Follow up with your child daily.
Ten Actions Parents Can Take if Your Child is Bullying Others (www.education.com)

1. Have an honest and firm conversation with your child
2. Make a commitment to help your child find healthy ways to resolve conflict and to stop bullying others
3. Schedule an appointment to talk with school staff including your child’s teacher(s) and the school counselor
4. Develop clear and consistent family rules for behavior and follow through on your child’s compliance to those rules
5. Monitor your child’s behavior at home closely
6. Your behavior teaches your children how to behave
7. Spend time getting to know your child
8. Be realistic and patient
9. Continue to work and communicate with school staff for as long as it takes
10. Don’t be afraid to ask for help
Link between Bullying and Mental Health

• Remember the definition of bullying:
  – Intentional, mean behavior
  – Imbalance of power
  – Repetition

➢ The prognosis for individuals who are bullied: hopelessness, frustration, depression, anxiety
➢ The prognosis for individuals who bully: anger, depression, social anxiety
➢ The prognosis for bully-victims: the worst; yet these are the kids that we’re “missing” in terms of accurate identification and referral to treatment
Involvement in bullying is linked to depression and anxiety*

- Students involved in bullying and victimization are more likely to experience depression and anxiety. Recognize and refer students for treatment of depression and anxiety.

- Workbook Publishing
  (www.workbookpublishing.com)

Effective Treatment for Depression and Anxiety in Bullies, Victims, and Bully-Victims

- **ACTION: A Workbook for Overcoming Depression** (Stark et al, 1996)

- **Coping Cat** (Kendall, Kane, Howard, & Siqueland, 1990)

- **Cognitive-Behavioral Group Treatment for Adolescents with Social Anxiety** (Albano, Martin, Holt, Heimberg, & Barlow, 1995)

- Referrals to counselors/psychologists/psychiatrists.
Realistic Strategies for Bullying Prevention and Intervention

1. Make sure your school has an anti-bullying policy that is consistent with state and federal policies.
2. Make sure the adult workplace models healthy social relationships.
3. Work respectfully and collaboratively with families.
4. Use videos and classroom discussion guides to talk about the detrimental effects of bullying.
5. Use social-emotional learning activities (www.casel.org) to create a positive school climate.
6. Use a positive behavioral interventions and supports (www.pbis.org) to respond effectively to student behaviors.
LPS District Policy

Policy 5482 – Lincoln Public Schools provides physically safe and emotionally secure environments for all students and staff. Positive behaviors (non-violence, cooperation, teamwork, understanding and acceptance of others) are encouraged in the educational program and are required of all staff. Inappropriate behaviors, including but not limited to bullying, intimidation and harassment, must be avoided by all students and all staff. Strategies and practices are implemented to reinforce positive behaviors and to discourage and protect others from inappropriate behaviors.

Schoo Middle School - Mission Statement

To educate, enrich, serve and support the Schoo Middle School Community in Order to Prepare Students for the Future.
Best Practices in Bullying Prevention*

• Involvement in bullying (bully, bully-victim, victim, witness) is a mental health problem and we must develop effective mental health promotion efforts in schools

• Healthy adult role modeling
  – Do you practice positive conflict resolution in your own life?
  – Do you treat everyone with dignity and respect?

• Positive peer and sibling relationships

• Positive home-school collaboration
  – Healthy relationships between parents and teachers
  – Positive relationships between teachers, students and administrators

*note the emphasis on prevention
Best Practices in Bullying Intervention

• 2008 meta-analysis by Ttofi, Farrington, & Baldry found that reductions in bullying were associated with:
  ➢ Parent training
  ➢ Increased adult supervision
  ➢ Non-punitive disciplinary methods
  ➢ Home-school communication
  ➢ Effective classroom rules
  ➢ Effective classroom management
  ➢ Use of training videos (i.e., “Stories of Us;” “Bully Dance”)
Video Resource

“Bully Dance” video

Bullfrog Films
Box 149
Oley, PA 19547
(610) 779-8226
Web: www.bullfrogfilms.com
Video Resource: Stories of Us--Bullying

- www.storiesofus.com

- *Stories of Us* is a unique series of education resources for primary and secondary students. Students collaborate in brainstorming the subjects, develop the scripts and perform all key roles. Every word of dialogue is their own, and every detail approved by the students. The *Stories of Us* videos are compelling as they draw upon the collective experience of the students, holding a mirror to their reality with such authenticity that some students watching them are convinced they are real.
Video and training resource

• “Let’s Get Real” video and curriculum guide
• [www.groundspark.org](http://www.groundspark.org)
• Running Time: 35 minutes
  Format: VHS and DVD - Special features include director's interview, clips from other RFAP films, chapter-by-chapter version of the film corresponding to the curriculum guide.
First Step: Assess the Scope of Bullying/Victimization in your School!

- Data-based decision-making
- Rates of bullying vary across schools and communities
- Prevalence rates of involvement in bullying (bully, bully-victim, victim, bystander) range from 10% to 75%
- What are YOUR school’s rates of bullying and victimization?
- H&H Publishing
- www.BullySurvey.com
Data-based decision-making
(Swearer & Espelage, 2004)

1. Partner with researchers to conduct an assessment of bullying behaviors
2. Conduct a school-wide anonymous assessment of bullying behaviors
3. Include multiple informants
4. Use self-report, other report, observations
5. Graph data to create a picture of the scope of bullying in your school
6. Use data to conduct classroom presentations on bullying
Data-based decision-making (Swearer & Espelage, 2004)

7. Use the data to create interventions for bullying
8. Use the data to establish preventative measures to create an anti-bullying climate
9. Share data with parent groups (e.g., PTO)
10. Create a data-based decision-making climate through the use of individual school data to help guide prevention and intervention programming.
Realistic Strategies for School Personnel

1. Increase awareness about the detrimental effects of bullying: School staff, students, and parents
2. Efforts must be annual, monthly, weekly, even daily
3. Make sure your school has an anti-bullying policy that is at minimum consistent with your state policy
4. Make sure that your policy includes provisions for intervention in addition to consequences
5. Sync your parental handbook, student code of conduct, and disciplinary referral forms
6. Zero tolerance policies are not effective
7. Consider restorative justice approaches when working with youth who are bullying others
One District’s Anti-Bullying Policy

• “Anywhere Public Schools provides physically safe and emotionally secure environments for all students and staff. Positive behaviors (non-violence, cooperation, teamwork, understanding and acceptance of others) are encouraged in the educational program and are required of all staff. Inappropriate behaviors, including but not limited to bullying, intimidation and harassment, must be avoided by students and all staff. Strategies and practices are implemented to reinforce positive behaviors and to discourage and protect others from inappropriate behaviors.”

• What do you think about this?
Top Ten List for Developing an Anti-Bullying Policy

1. Must be created by school staff along with district, State Board of Education, and State policies.
2. Is written with input from students and teachers.
3. Is focused around a school mission statement and communicates the vision of a safe school.
4. Outlines procedures to be used by staff to achieve consistency in daily interactions with students and supervision of school areas.
5. Should provide flexibility for classroom teachers.
Top Ten List (continued)

6. Protocol for behavioral problems that is enforced school-wide.

7. Guides staff development and supports staff growth.

8. Is evaluated and updated annually.

9. Is consistent with school board policies and state and federal laws.

10. Is frequently reviewed with staff, parents, and students.
Develop an Anti-Bullying Policy

• Suggestions for developing policy and implementation
  – Does your school currently have a policy?
  – What is it?
  – Does the policy have provisions for intervention?
  – Does the policy sync with disciplinary referral procedures?
  – Does the policy sync with state and federal guidelines?
  – What are important elements to include in an anti-bullying policy?
Bullying Prevention and Intervention Programs*

• Research-based bullying prevention and intervention programs include:
  – *Steps to Respect*
  – *Second Step*
  – *Bully Busters*
  – *Bully-Proofing Your School*
  – *The Peaceful Schools Project*
  – *Olweus Bullying Prevention Program*

*Empirical support defined by data published in peer-reviewed journal articles or chapters and research conducted in U.S. schools*
Bullying Prevention and Intervention Resources

Know what the research supports and make informed decisions about prevention and intervention strategies.
Bully-Proofing your School Series

• Provides a comprehensive line of publications for elementary, middle, and high schools, as well as early childhood.
• Translated into Spanish.
Order Information

- [Sopris West Educational Services](http://www.sopriswest.com).
- Orders may be placed on their website: [www.sopriswest.com](http://www.sopriswest.com)
- or by calling 800-547-6747

• Intervention and prevention program designed specifically for the elementary school years.
• Classroom-level program addresses the essential components of the school ecology that are responsible for change.
• Focus on teacher education and training.
• Differing implementation methods facilitate the needs of different school ecologies.
Steps to Respect and Second Step (Committee for Children, 2004)

- Research-based program; research-based modules
- Includes school-wide implementation support
- User-friendly
- Comprehensive: Grades K-6
- *Developmental Psychology* article: found that playground bullying reduced by 25%

The Role of Adults in Schools

- Adults must take a leadership role alongside youth in bullying prevention and intervention.
- Spear-head an anti-bullying committee to determine what policies and procedures are in place to deal with bullying.
- Document examples of bullying that have occurred in your school and determine if there are any patterns.
- Parents need to be involved in bullying prevention and intervention efforts.
- Empower students to be the change.
If WE don’t help stop bullying, who will?

www.stopbullying.gov
Summary

- Bullying is a serious problem for all age levels, with pre-adolescents particularly at risk.
- All forms of bullying (i.e., verbal, physical, relational, and electronic co-occur).
- Adults need to become better informed in order to be credible resources for young people.
- Bullying in all forms (verbal, physical, relational, electronic) are connected to mental health difficulties.
- Interventions need to be tailored across the social ecology (individual, family, peer, school, and community).
- A commitment to change is on-going and never ends.
Finally, in the words of Lady Gaga......

- “Don't be a drag, just be a queen
  Whether you're broke or evergreen
  You're black, white, beige, chola descent
  You're Lebanese, you're orient
  Whether life's disabilities
  Left you outcast, bullied, or teased
  Rejoice and love yourself today
  'Cause baby you were born this way

- No matter gay, straight, or bi,
  Lesbian, transgendered life
  I'm on the right track baby
  I was born to survive
  No matter black, white or beige
  Chola or orient made
  I'm on the right track baby
  I was born to be brave”
