

NATIONAL ASSOCIATION OF
School Psychologists

Research Committee

**Faculty Advisor's Approval of Student's Request for Access to
NASP Members as Research Participants**

I have read the entire proposal submitted to the NASP Research Committee in support of my student's application for access to NASP members as participants in a research study. I have reviewed all documents, including IRB approval, survey instrument(s), cover letter and consent materials, and I approve these documents.

I understand and agree that, if the proposed research project is the basis for a thesis or dissertation associated with my student's degree program, the NASP Research Committee's review may result in recommendations for revisions to the proposal/project that will be required before the proposal will be approved.
